

***Building Public-Private Linkages to Advance
Reproductive Health and HIV/AIDS Services
in Africa***

Workshop Overview

**Barbara O'Hanlon
PSP-One**

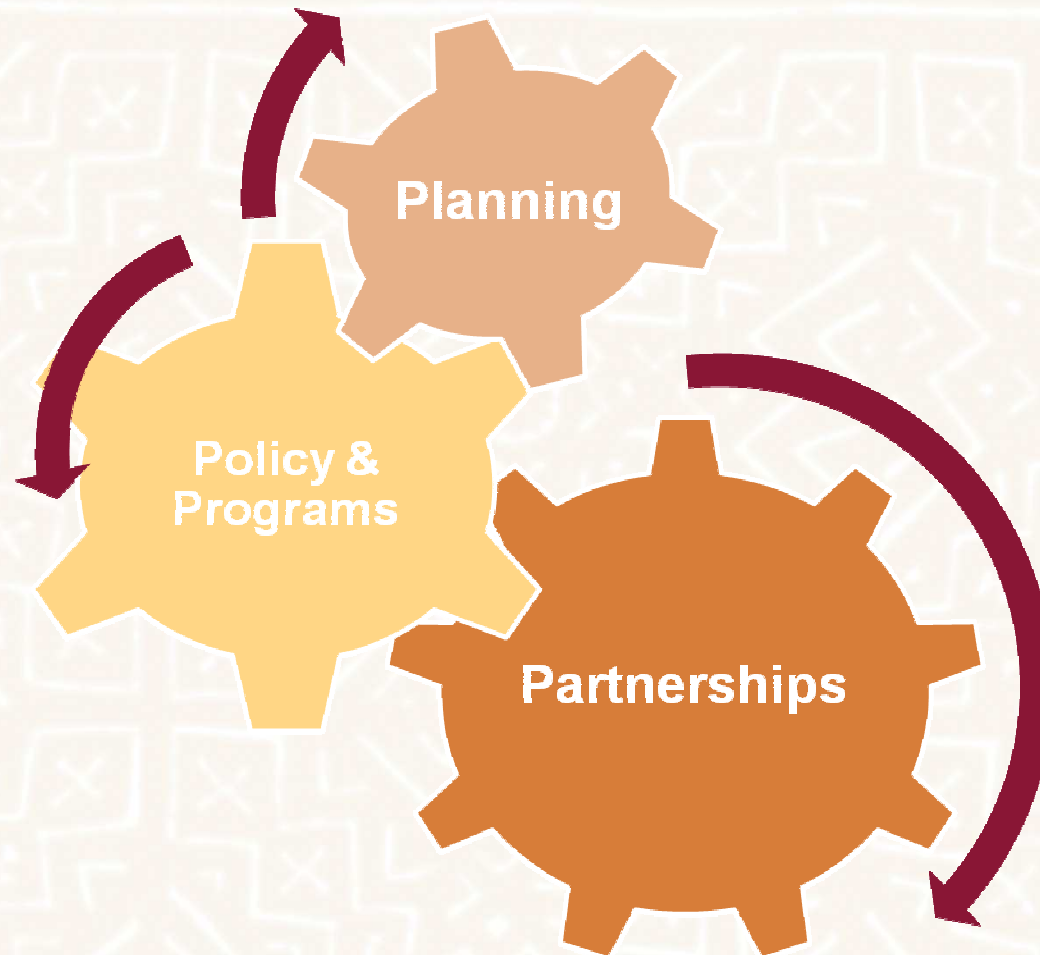

Timing is right

- ❖ Conflicts down, political stability up,
- ❖ Sub-regional efforts to address range of issues
- ❖ Widening growth: 15 countries > 5%
- ❖ Increasing government commitment to private sector
- ❖ Strong support from development partners/G8 potential
- ❖ Increasing private sector willingness to invest in Africa
- ❖ Range of public/private health initiatives in health in Africa

Workshop objectives

- ❖ Strengthen existing MOH capacity to engage private sector in RH/FP and HIV/AIDs related services
- ❖ To create a network for experiential learning across countries on challenges in strengthening PPPs
- ❖ To strengthen existing relationships and linkages across priority programs in MOHs to work effectively with the private sector
- ❖ To produce key actions for participant countries to design, develop and manage private sector partnerships

Three technical tracks in the workshop

Policy Instruments

Partnerships

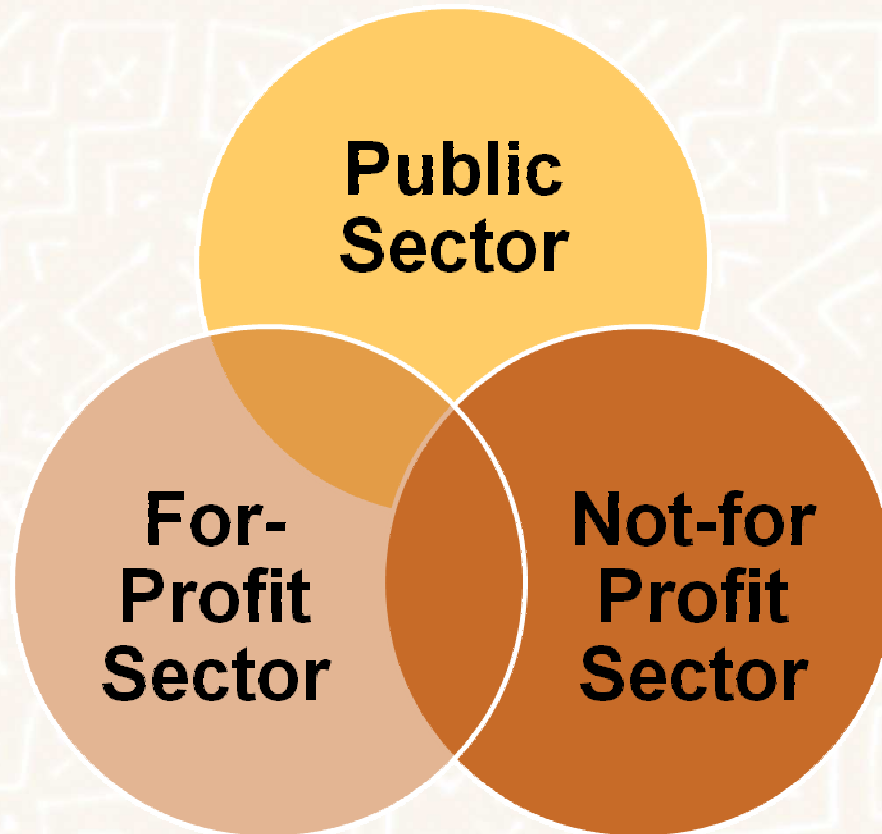

Planning

Core concept #1: public private partnerships

❖ Elements of a PPP in health

- Collaborate with private partner(s)
- Work together to achieve common objective (public health good)
- Share risks and rewards
- Aim to leverage comparative advantage and use effectively each partner's resources
- Strengthen the *entire* health system

Core concept #2: whole market approach

Integrated health system

Core concept #3: market segmentation

Who provides what
services?

To what target
population groups?

With what
resources?

Core concept #4: stewardship

Elements of stewardship

- ❖ Cooperative planning to take care people's health
- ❖ Respect and accountability for nation's well-being
- ❖ Best mechanisms to take care people's health
