

Maximizing the Role of the Private Sector in HIV/AIDS and TB Service Delivery

Please join Abt Associates and speakers from John Snow, Inc., Boston University, and O'Hanlon Health Consulting for a panel discussion examining the evolving role of the private health sector in delivering TB and HIV/AIDS services:

Tuesday, May 26th

9:00 – 11:00 am

Palladium Ballroom, Omni Shoreham Hotel

2009 Global Health Council Conference

(GHC Registration Required to Attend)

■ ■ ■

This expert panel will showcase promising approaches and innovations for working with the for-profit-health sector in delivering effective TB and HIV prevention and treatment services.

- ***Generating Empirical Evidence***, Sara Sulzbach MA, Research Director, Private Sector Partnerships-*One* project, will examine the state of knowledge about the capacity and future potential of the private sector to deliver HIV/AIDS services.
- ***Lessons from Implementing TB and HIV/AIDS Services Through the Private Sector***, Gilbert Kombe MD, Senior HIV/AIDS Technical Advisor, Abt Associates, will examine global lessons learned from implementing private sector service delivery in Ethiopia.
- ***Moving Towards Partnership***, Rich Feeley JD, Boston University, will explore the private sector role in treating AIDS and the policy and regulatory environment framing this role.
